

About 479 Hair Design

The Salon opened in July 2002

With so many years experience behind us, we decided we wanted to give more, to our clientele. We began by drawing up plans to expand our premises with a new extension.

We wanted to create a spacious, modern, professional salon, offering traditional and modern services to all.

In 2005 we achieved our goal

We have incorporated all aspects of hairdressing, with a separate zone for beauty therapy, massage and spray tanning.

The story does not end there!

We strive towards continuous improvement, ensuring 479 maintains its professional, warm and friendly environment for all of our customers.
